Around Nunavut

In the top row of my poster on the left is a picture of men and women from Gjoa Haven. I know most of them.

In the top middle is my Uncle Enuik playing the fiddle. I often go watch him in practice with his band.

I have seen Donovan in Gjoa Haven during the summer games.

I like the look of the egg shaped rock with the carvings on it.

We use the qulliq in our igloo to warm up the igloo.

We use the sleds to go camping in the winter and sometimes spring. I liked the reflection of the qamutik in the water. I picked this picture because I liked the sled and the person reading in front of it.

I liked this picture of Bethany and Shana. They are in Intermediate One (grade 4) in our school.

I picked this picture so that people would stop smoking.

I like the picture of the hunter and the caribou.
